CORE POSITIONING & VALUE

Websites built to turn business attention into enquiries.

I design and develop modern, responsive websites for businesses and partner with marketing agencies to deliver polished digital experiences, reliable functionality, and performance-focused implementations. Every project is crafted using clean, modular React and modern web standards with zero template bloat.

CORE SERVICE OFFERINGS

01. Business Website Development
Custom multi-page websites for companies, healthcare, and service providers. (Starting from ■20,000 indicative)

02. Campaign Landing Pages
High-conversion single pages built for paid media, ad funnels, and product launches. (Custom quotation)

03. Website Redesign & UI Modernization
Transform outdated or slow websites into sleek, responsive digital assets with clear information hierarchy.

04. Technical SEO & Core Web Vitals
Sub-second load targets, zero layout shifts, semantic HTML5, and valid Open Graph / sitemap infrastructure.

AGENCY PARTNERSHIPS

WHITE-LABEL & SUBCONTRACTING FOR AGENCIES

I provide reliable, behind-the-scenes web development support for digital marketing and creative agencies:

- **White-Label Development:** Clean delivery under your agency brand with strict NDA confidentiality.
- **Rapid Ad Landing Pages:** Quick turnarounds on campaign pages built to convert your client traffic.
- **Overflow Bandwidth:** Dependable subcontracting support when your in-house team is at capacity.
- **Clean Handoffs:** Well-documented React component codebases with clean Git history.

Quoted transparently by project scope, complexity, or ongoing workload.

DISCIPLINED 5-STAGE WORKING PROCESS

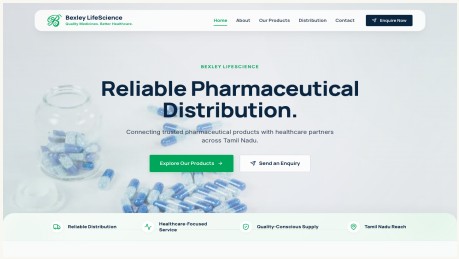

01. Discovery	02. Scope & Plan	03. Build & Craft	04. QA & Test	05. Deployment
Audience, objectives & requirements.	Information flow & deliverables.	Responsive React & CSS development.	Viewport, SEO & speed validation.	Launch, live checks & code handoff.

** Note on Quotations & Timelines: Every proposal is tailored to project requirements, deliverables, and timeline. Delivery schedules (typically 1–3 weeks) depend on scope complexity, feature requirements, content readiness, and feedback cycles.*

SELECTED WORK & VERIFIED PROJECT CLASSIFICATIONS

Transparent Portfolio & Case Evidence

VERIFICATION INTEGRITY STANDARD: Bexley LifeScience is my confirmed completed client build. All other featured projects are self-initiated concepts and demonstration systems designed to show domain-specific UX architecture, interaction craft, and responsive engineering without fabricating client claims.

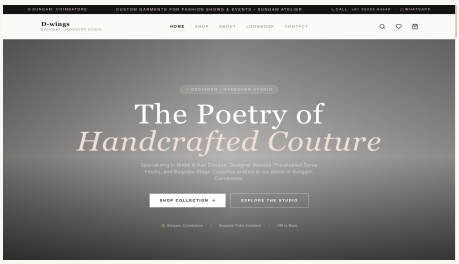

01. BEXLEY LIFESCIENCE [COMPLETED CLIENT BUILD]

Industry: Pharmaceutical Distribution & Healthcare Supply

Live Site: bexleylifescience.com ■

Challenge: Required a modern, authoritative corporate web presence to showcase regional wholesale distribution across Tamil Nadu, organize a large pharmaceutical catalog, and route B2B procurement enquiries from retail pharmacists and hospital networks.

Delivered Scope: Custom React component architecture, zero external UI bloat, clean product categorization, fully responsive cross-device layout, and verified direct inquiry dispatch.

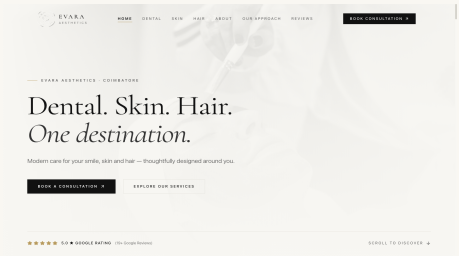

02. D-WINGS FASHION [WEBSITE CONCEPT]

Industry: Haute Couture, Bridal Atelier & Designer Apparel

Live Demo: d-wings.vercel.app ■

Concept Objective: Showcase how artisanal bridal wear and stage couture can be presented with high-fashion editorial layouts, cinematic hero framing, and refined typographic contrast.

Implementation: Lookbook gallery architecture, mobile-first luxury browsing flow, and direct WhatsApp customer consultation routing.

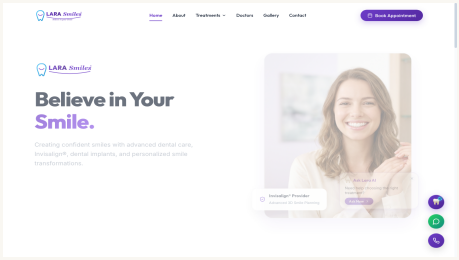

03. EVARA AESTHETICS [WEBSITE CONCEPT]

Industry: Clinical Aesthetics, Dermatology & Cosmetic Care

Live Demo: demo-evara-aesthetic-white-theme.vercel.app ■

Concept Objective: Explore minimalist clinical aesthetics balancing medical authority with soothing visual elegance for dental, skin, and hair therapies.

Implementation: Spacious white-theme art direction, structured multi-treatment pathways, and frictionless patient appointment consultation enquiry flows.

04. LARA SMILES DENTAL CLINIC [WEBSITE DEMO]

Industry: Modern Dental Healthcare & Orthodontics

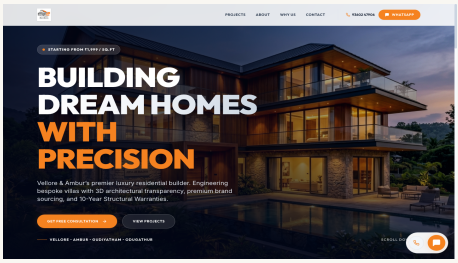

Live Demo: lara-smiles-dental-clinic.vercel.app ■

Concept Objective: Patient-first healthcare experience created to demystify complex dental treatments, highlight doctor credentials, and invite confident bookings.

Implementation: Procedure categorization, accessible typography, high contrast, and direct appointment enquiry dispatch.

TECHNICAL FOUNDATIONS & COLLABORATION

Engineering Standards & Contact

05. JEEVA JEE BUILDERS **[WEBSITE CONCEPT]**
Industry: Residential Construction, Architecture & Turnkey Villas
Live Demo: **jeeva-jee-builders.vercel.app** ■
Concept Objective: Demonstrate how transparent construction specifications, villa project galleries, and upfront warranty communication establish trust with regional prospective homeowners.
Implementation: Structured project showcase cards, specification matrix, and instant WhatsApp enquiry integration.

CORE TECHNICAL CAPABILITIES
